

Santhosh Kumar S

Hosur, India

sk18284176@gmail.com — 7305118197 — LinkedIn — GitHub

Professional Summary

Full Stack Developer experienced in building scalable web applications using .NET, Angular and cloud technologies. Skilled in REST API development, backend performance optimization, and building production-ready enterprise applications.

Work Experience

Programmer Analyst, SwiftAnt IT Solutions India Pvt Ltd, Hosur Jan 2025 – Present

- Developing scalable enterprise applications using .NET Core, Angular, SQL Server and MongoDB.
- **Afrisure – InsureTech Platform**
 - Developed backend services and REST APIs for an insurance product management and policy publishing platform.
 - Integrated SQL Server and MongoDB for managing insurance products, metadata, reporting and configuration workflows.
 - Worked on Azure-based background processing, product export/import workflows and large JSON data optimization.
- **CSR – Corporate Solution Redefined**
 - Developed backend services and REST APIs for hotel booking and corporate travel workflows.
 - Implemented booking, reporting and user management modules using .NET Core and SQL Server.
 - Collaborated with frontend teams to build scalable APIs consumed by Angular applications.

Intern, SwiftAnt IT Solutions India Pvt Ltd, Hosur Sep 2024 – Jan 2025

- Built backend applications using C#, .NET and SQL Server.
- Developed REST APIs and database-driven enterprise modules.
- Gained practical experience in debugging, API integration and backend development.

Intern, Inmakes Infotech Pvt Ltd, Kochi Mar 2024 – Aug 2024

- Developed REST APIs for cinema ticket booking applications.
- Built backend services for COVID medicine camp management systems.
- Worked with SQL Server for database operations and stored procedures.

Personal Project

SkiNet – Full Stack E-commerce Application

Live Demo

- Built a full-stack e-commerce platform using .NET Web API and Angular with scalable REST APIs.
- Implemented Redis caching, Stripe payment integration and SignalR-based real-time notifications.
- Tech Stack: .NET Web API, C#, SQL Server, EF Core, Angular, TypeScript, Tailwind CSS, Redis, SignalR

FluxCore – Metadata-Driven Multi-Tenant SaaS Engine

Live Demo

- Built a metadata-driven multi-tenant SaaS platform with dynamically rendered dashboards from JSON-based configurations.
- Developed tenant-isolated backend architecture using .NET 10, EF Core 10 and middleware-based auditing.
- Tech Stack: .NET 10, EF Core 10, Angular 21, TypeScript, SQL Server, JWT Authentication, Signals

Skills

- **Backend:** .NET Core, C#, REST API Development, Entity Framework Core
- **Frontend:** Angular, TypeScript, Javascript, Tailwind CSS, HTML, CSS
- **Databases:** SQL Server, MongoDB, Redis
- **Cloud & Tools:** Azure, Git, GitHub, Bitbucket, Gitlab, Azure devops

Certification

- Microsoft Certified: Azure Developer Associate (AZ-204)
[View Credential](#)
- Microsoft Certified: DevOps Engineer Expert (AZ-400)
[View Credential](#)
- Microsoft Certified: Azure Cosmos DB Developer Specialty (DP-420)
[View Credential](#)

Education

Bachelor of Engineering – Mechanical Engineering

Er. Perumal Manimekalai College of Engineering, Hosur

Sep 2022 – Apr 2025

Diploma in Mechanical Engineering

Er. Perumal Manimekalai Polytechnic College, Hosur

Jul 2018 – May 2020
